Lighting the way since 1870

For over 150 years we've been crafting our candles to honour our heritage and to ensure the highest quality. Through the magic of the flame, we create billions of moments to enable everyone of us to reconnect with ourselves and our loved ones. While doing so, we take responsibility in contributing to a better planet.

We are here to create products of superior quality that share the magic of the flame to reconnect people with themselves and their loved ones, for now and generations to come.

We are a certified B Corp

We are delighted to have joined the B corp movement. As a B Corp, we're part of a global community of businesses that meet high standards of social and environmental impact. Organizations that use their business as a force of good. It marks the beginning of our journey towards continuous improvement and collective action.

since 1870

CRAFTSMANSHIP

Built on a strong heritage since 1870 and driven by our passion to reconnect people, we take pride in crafting our products, designed in The Netherlands and made in Europe.

SUPERIOR QUALITY

Discover a high standard of quality with our carefully crafted products, utilizing state-of-the-art technology. Our in-house development is fueled by a dedicated research department and the expertise of our fragrance specialists, ensuring an optimal experience.

Enjoy a perfect flame and an exceptional fragrance release.

IMPACT PERFORMANCE

With love for people and planet, we take responsibility—optimizing candle blends, using plant-based materials. Embracing recyclable packaging, low-energy transportation, and reducing waste, we strive for an Earth-friendly approach.

FOR ALL OF US

bolsius
since 1870

A photograph of a window sill decorated with several lit candles. On the left is a tall, thin candle in a grey concrete holder. Next to it is a thick, cylindrical candle on a marble coaster. In the center is a small, round candle on a wooden coaster. To the right is a candle in a white ceramic holder, and further right is a candle in a frosted glass holder with the number '8' on it. The background shows a window with a view of green trees and a building. A semi-transparent orange circle with white text is overlaid on the upper part of the image.

A woman with long blonde hair, wearing a red dress, is seated at a table covered with a blue cloth. She is smiling and looking towards the left. The table is lit with several lit candles in glass holders. In the background, there is a window with vertical blinds and a shelf with more lit candles and a decorative glass object. The overall atmosphere is warm and intimate.

With CleanLight we target a group of conscious consumers. This sustainable choice is of great added value to the fragrance category.

CleanLight

Discover CleanLight, where revolutionary double-walled glass ensures a complete burn, leaving only the wick holder. With an exceptional fragrance, CleanLight not only sets the perfect atmosphere but burns cleanly, minimizing waste. Redefine your candle experience with the perfect blend of aroma and sustainability.

Bring added value to the category with our rustic candles. The trendy colours and various sizes will give plenty of choice to create the right ambiance in every interior.

Rustic candles

Bolsius quality rustic candles are available in different sizes and come in an array of 21 different colours. The collection has been inspired by the textures and colours of nature. Made without palm oil, but with vegan wax from olive, sunflower or rapeseed oil - with love for people and planet. The candles stays beautiful up to hours different per candle. Our MaxAmbiance technology combines a unique wax recipe with a superflat wick for perfect burning performance. So the candle stays beautiful up to hours different per candle.

About our quality candles

Bolsius has been producing quality candles in multiple European production locations since 1870. Our specialists in marketing and research & development anticipate questions from the market and translate actual trends into appealing new products. No matter which products we introduce, they always live up to the highest quality standards.

The Bolsius quality seal, which you can find on our packaging, symbolizes this quality. You can also find the RAL quality stamp as well as the Green Dot logo on the packaging. The RAL quality stamp refers to an official European quality standard which offers guarantees in the area of standardization of sizes, weight, use of safe and pure raw materials as well as safe burning behavior. The Green Dot logo is an environmental registration logo. It means that we as a manufacturer contribute in the cost of separation of waste as well as the recycling system.

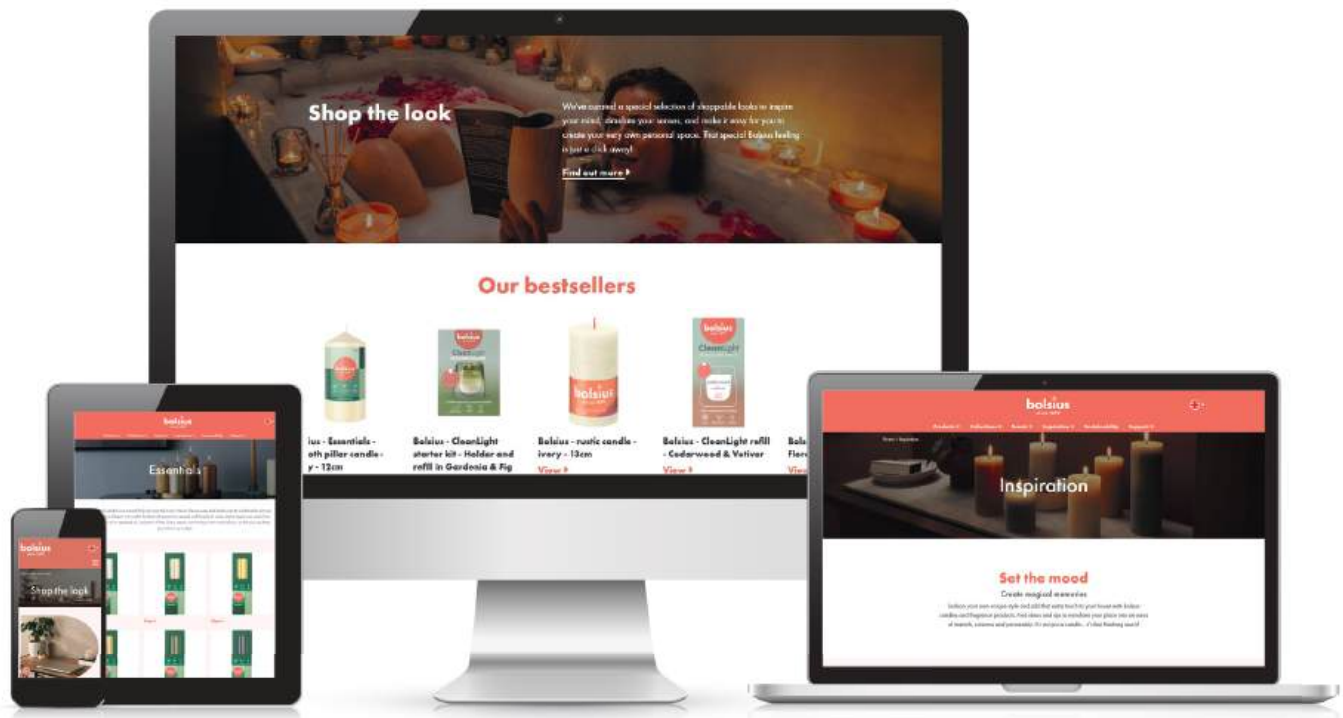

User instructions

Bolsius considers safety of paramount importance. Not using candles in the right way can be dangerous. We provide user instructions by means of pictograms on our packaging, according to the European law EN 15494 "Candles – Product safety labels" and EN 16740 "Emission safety of combustible air fresheners – User safety information". With these instructions, the consumer can enjoy the candles safely and optimally. The meaning of the pictograms can be found below.

	General warning sign.		Do not move a burning candle.		Candle gets lighter during burning project from strong wind by using a suitable holder.
	Never leave a burning candle unattended.		Never use liquid to extinguish.		Do not use on a balcony or veranda.
	Keep away from things that can catch fire.		Remove packaging before use.		Do not burn in rain or snow.
	Keep away from children and pets.		Trim edge if higher than 1 cm.		Use in a suitable lantern.
	Use a heat resistant candle holder.		Only use in holders and warming stoves with sufficient ventilation.		Ensure a firm stand.
	Use in a suitable bowl filled with water.		This candle liquefies, use a suitable container.		Do not touch a burning garden torch.
	Ventilate the room after use.		Do not touch, may be hot.		Do not touch, may be hot.
	Avoid direct inhalation of any smoke.		Do not burn in a warming unit.		Keep a minimum distance of x m to the garden torch.
	Keep candles at least 10 cm apart.		Danger of burns from liquefied wax.		Straighten wick.
	Do not burn in a draught.		To avoid spatter, do not add water or fragrance oil to wax.		
	Do not place candles near a source of heat.		Not suitable for consumption.		
	Place candles in an upright position. Candles on a slant can smoke or drip.		Always place in upright position.		
	Trim wick to about 1 cm before lighting.		For outdoor use only.		
	Always snuff out the flame. Do not blow it out.		Only use at cemeteries outdoor.		
	Keep the wax pool clear of matches and other debris to avoid flaring.		Keep a distance of x m beside and y m above things that can catch fire.
